Stage design by Giorgos Stylianou-Matsis

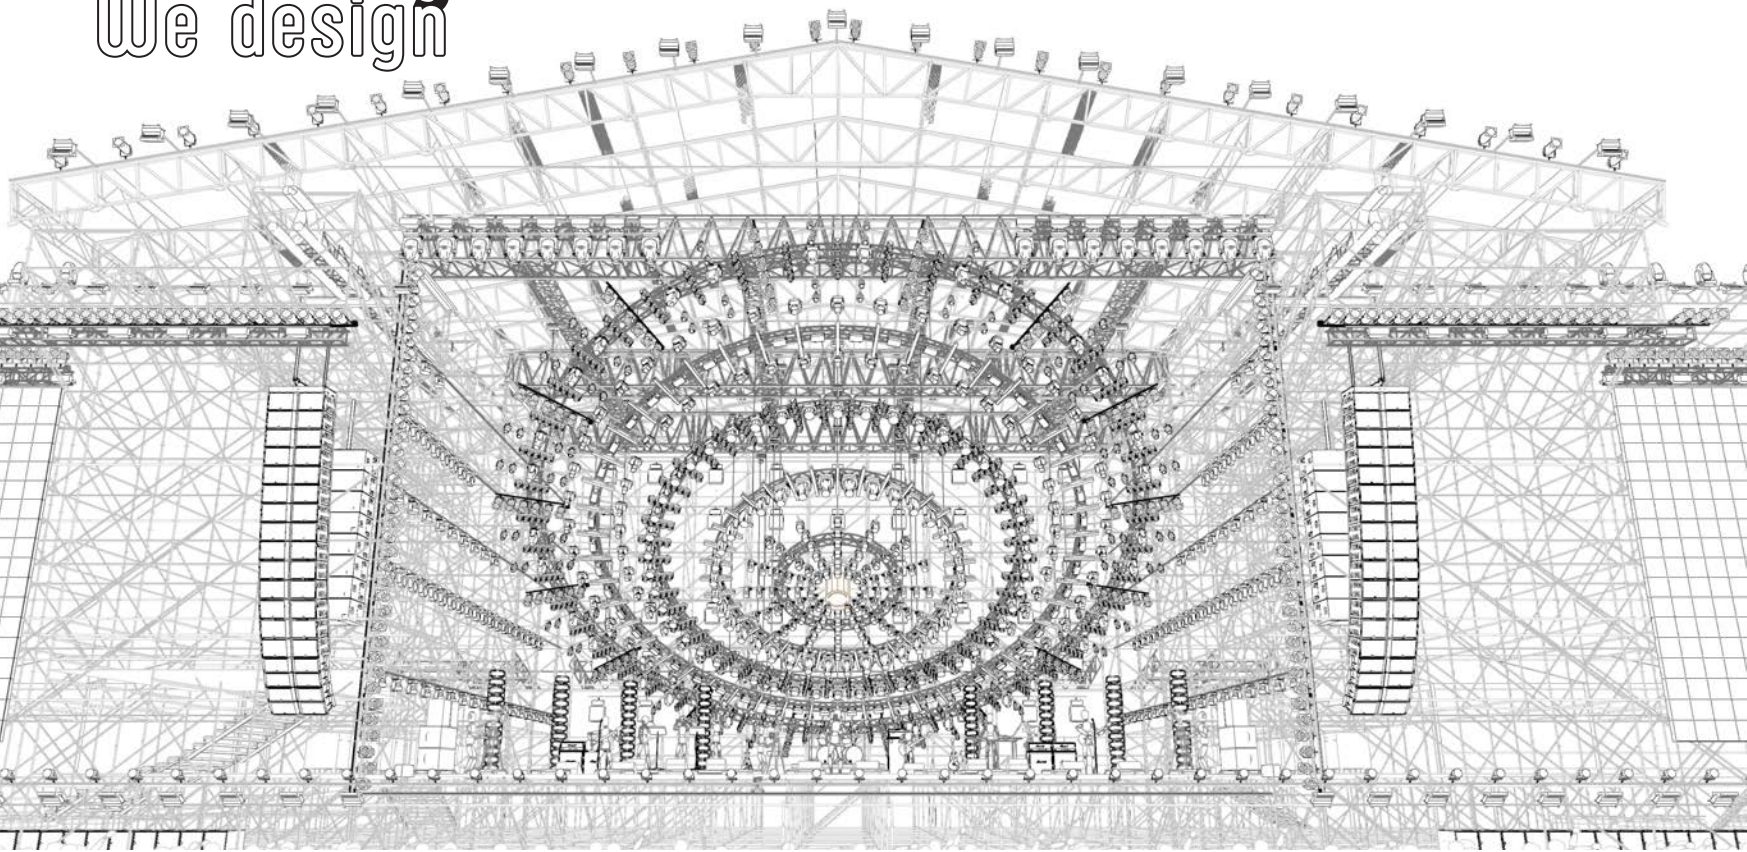

We are
We are

Stage, multimedia, lighting, and technology
**experts with over 30 years' industry
experience.**

We design

We design

Spectacular lighting and **unique stages** according to the wishes and vision of our clients.

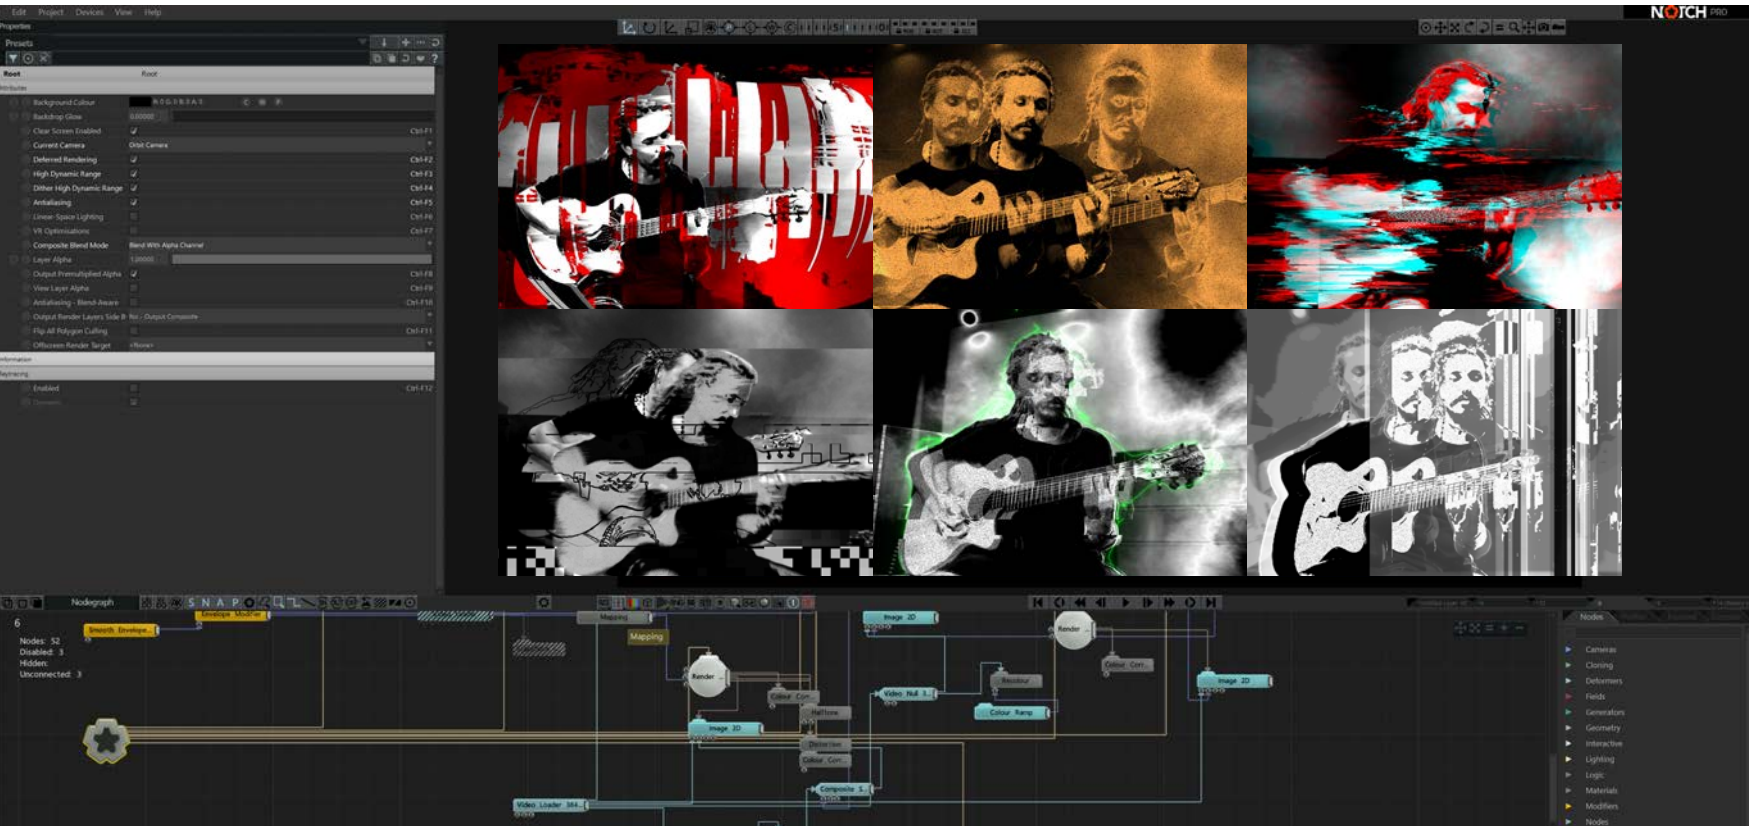

We drive We drive

We introduce **innovations, trends,**
and **new standards** in the production industry.

We create

We create

We connect creativity with technology – designing visuals, effects, and motion that become an inseparable part of the performance, complementing the music and creating one cohesive spectacle.

GPB
STUDIO

We support We support

We work closely with **directors, promoters, producers,** and **creative agencies** to guide our clients through every step of the production process.

Lighting

We deliver comprehensive, tailor-made lighting solutions for every event.

Every detail is designed to reflect your event's unique character, create the perfect atmosphere, and bring your artistic vision to life.

We ensure your vision comes to life

Creative stage design

We specialise in unique stage projects that bring outstanding results to life.

Our solutions are always custom-tailored, fully aligning with your vision.

Pre-programming

Save your money
Save your time
Check your ideas
Less mess = Less stress

See your show in full detail before the first stage element has been built.

Multimedia

We provide advanced multimedia technologies and comprehensive technical support for every aspect.

Our team handles the entire execution, guaranteeing reliability, seamless performance, and a safe, worry-free production.

Content Creator

**Let's create something unique
Together!**

Our services include visual design, real-time rendering, interactive installations, creating 3D environments, VFX for broadcast, and augmented/extended reality (AR/XR) experiences.

We boost the narrative of events

Rental
